SFX: Metal music backing track begins.

MVO 1 (Metal vocal parody): Shut your eyes and go to sleep,
Sitting in a comfy seat,
Rest your head your weary feet,
Your eyes are getting heavy - no retreat,
They feel so heavy just like concrete,
You know the truth, you can't fight sleep!

SFX: Metal music backing track now comes down to a faint volume.

MVO2 (TAC Tone): Every song's a lullaby when you're drowsy driving.
You can't fight sleep with loud music, but you can with a 15-minute powernap.
Pull over for one and avoid drowsy driving. TAC, Towards Zero.
