**Title:** Burbs - Dog

**MUM:** *(talking to dog)* Hello beautiful, what have you been doing? Look at you! Come and talk to Karana.

Look at your beautiful whiskers ahoy. Hey, how old are you? Eleven and a half? You'll be twelve soon, seventy-seven, or eighty-four soon, won't you?

Look how many whiskers you've got. So many whiskers...

She doesn't want to talk.

*(continues under ANN)* Chloe - come and talk to Karana. Come and talk. Have you been sleeping? Did you have a good sleep?

**ANN:** Does your Mum need to get out of the burbs?

Take her to Perth City this Mothers Day.

**Title:** Burbs – Plants

**MUM:** I have to keep my plants indoors looking good. I have to.

I try not to, but I keep seeing... I've just got to pluck that off, or I just, that leaf is not dead, and oh is that as nice as it could be? Maybe I ought to turn that pot around a bit more because now that it's grown or whatever. And oh, do I have to exchange it with the outdoor ones?

Um and then it annoys me if a plant starts to wilt in there because it looks so good but then I have to put it out and exchange it for one that might not look so good, but you've got to give it a rest and you've got to, you know, give them a turn. And I think 'oh good, I've got the one like back in again and the one I don't like as much can go back out again' and yeah...

*(continues under ANN)* Cause I mean, I do, I do enjoy... I go past that all the time and I love it because to me it's sort of the best part of the house...

**ANN:** Does your Mum need to get out of the burbs?

**Title:** Burbs – Flip Tap

**MUM:** So I always do the tap and the drainer first and because I have got a shiny stainless steel kettle, I just put a bit on that too to make sure that's shiny.

See this is a tap that's a... what do you call these taps? A, um, what are these taps called? A flip tap or whatever.

And you've got to make sure you've cleaned all the sides of it, the hot and cold part of it, otherwise you might find it's dirty underneath.

Always go under the spout, not just on top. It's amazing how you can easy forget these things and then you go 'eh, it's dirty under there'. Can't see it from the top.

*(continues under ANN)* And then the outside of the sink...

**ANN:** Does your Mum need to get out of the burbs?

**MUM:** ...it just makes it come up really shiny. It's like you're polishing it.
