## RADIO 30": WAREHOUSE

We are at work in a huge warehouse and something has happened to a workmate. We are first on the scene and all we hear apart from our own voice echoing through the space is the distant beeping of forklifts and a muffled radio in the background. We are all alone in the panic of the situation.

MAN: Heeeeeeeelp!!!! Heelp!!!! Does anyone know first aid?

MAN: Can you hear me? Mate, are you awake? What happened? Can you hear me?

MAN: (Runs to find something and rummages around) Agggh, where is it?!

MAN: (Runs back) Ummm. Aggh. Help! Heeeeeelp! Does anyone know first aid?

**FVO: What would you do? Know first aid. Search St John Ambulance Vic now.**
