1 X 30 SECOND RADIO | WHEN A PLAYER GOES OUT TO GO IN.

M1: (A guy explaining the game of cricket)

When a player goes out to go in, the players who are out try to get them out, and when they are out they go in and the next player in goes out.

When both sides have been in and everyone is out – including those who are not out – the game is over.

(Pause)

1 X 30 SECOND RADIO | A BIT OF GARDENING

M1: (A guy explaining the game of cricket)

There are two players. One does a bit of gardening while the other watches.

When the player doing the gardening finishes, he or she might go for a drive.

If they drive nicely, both players run.

Sometimes when they drive another person runs for them.

1 X 30 SECOND RADIO | PEOPLE WHO STAY OUT ALL THE TIME.

M1: (A guy explaining the game of cricket)

There are people who stay out all the time, and they decide when those who are in, are in or out.

Sometimes they go upstairs to see if a person is in or out.

Depending on the weather, they can send everybody in, no matter whether they're in or out.

(Pause)
