VO: A lot can be achieved when you put your head down.  
Knowledge can be gained.  
Doors, opened.  
Futures, crafted.  
Indeed, when you put your head down...  
And for that moment, just focus...  
You will see.  
You will see past the clutter of formulas...  
The jumble of required readings...  
The chaos of colour-coded post-it notes and highlighted text...  
Through to something truly remarkable...  
Your potential.  
And though, at times, you will agonise...  
You will lose sleep...  
And you will wish it were over...  
Know that soon, it will be.  
And it'll all be worth it.  
Because the only thing left to do after you put your head down...  
Is to lift it up high again.  
So from all of us here at Curtin University...  
Good luck with your exams...  
Awesome awaits.
