United Nations	World Environment Day	Killed by a Car	45

VO (*grave, serious*): You are about to hear a ten year old girl being killed by a car.

SFX: *Suburban ambience. A car starts and drives off.*

We stay with it as it climbs steadily through its gears.

It pulls over. Engine turns off. Handbrake is applied.

VO: Last year, air pollution killed more people than car accidents. Be aware. United Nations World Environment Day. Sunday June 5.
